★ SHORE  
WINNER**

It is a common mistake to think that the only way to get a good education is to go to a good school. In fact, the best education is the one that you get from life. The best school is the one that you are in every day. The best teacher is the one who is always with you. The best subject is the one that you are interested in. The best way to learn is the one that you use every day. The best time to learn is the one that you have. The best place to learn is the one that you are in. The best person to learn from is the one who is always with you. The best thing to learn is the one that you need. The best way to teach is the one that you use every day. The best time to teach is the one that you have. The best place to teach is the one that you are in. The best person to teach is the one who is always with you. The best thing to teach is the one that you need.
